	Veg Oil Conversion System 12V up to bis 1000 kW motor power Nr. VB121000	3252,10 EUR
	Veg Oil Conversion System 24V up to bis 1000 kW motor power Nr. VB241000	3252,10 EUR

all Prices in Euro, ex works HeiPro Karweese, Germany

- Suitable for diesel engines with in-line or distributor pumps from Bosch (except for type VP44), Diesel-Kiki, Nippon-Denso or Zexel. The conversion of diesel engines with Bosch VP44-injection pump, high-pressure fuel injection like unit-injector pumps or common-rail-technology is only possible through skilled HeiPro conversion partners. Injection pumps from Delphi, Lucas, CAV, Stanadyne and Roto-Diesel are not or only partially suitable.
- Following components are included in delivery: controller (mode auto or manual switching), compact "all in one" VegBlock (tank switching, flush/vent) incl. dust and waterproof protective cover with integrated electric continuous-flow heater (Diesel-Therm®), thermo switch (regulates the temperature), control electronics (diesel quick purge, acoustic warning), heat exchanger for water circuit, fuel lines, fuel filter, relays, pre-assembled cable loom with connectors, fuses and protective caps, miscellaneous materials, detailed installation instructions
- A additional fuel tank is not included in delivery and has to be ordered separately.
- The installation can be performed by any reputable garage/mechanic. Craftsmanship and an understanding of diesel engines provided, a DIY (do-it-yourself) installation with the included installation notes is also possible.
-

Elektrical level meter 12/24 V incl.fuel gauge (illuminated, D 50 mm) with OD 50mm, only for Fuel Tanks with following numbers: SE2029, SE2030

***all Prices in Euro, ex works HeiPro Karweese, Germany**

Tank for Spare wheel hole fits 15" 44 Ltr., material Eltex (plastics)

100,00 EUR

Nr.: RT2058

meas ca. OD 58 cm x height 20 cm.
Fits all Spare wheel holes with an OD 60 cm

Electrical fuel level sensor 12/24 V, H 19,5 cm with Distance disc

91,60 EUR

Nr.: SO3801

Elektrical level meter 12/24 V incl. fuel gauge (illuminated, D 50 mm) with OD 50mm, only for Fuel Tanks with following numbers: RT2058

Electrical Fuel Sensor 12/24 V, universal

25,21 EUR

Nr.: SO3800

Only usable with an LED that runs when the fuel level is low! Not for use with an Instrument!

Fits all tanks! (please give us the number of your tank if you order! Like SE2009...)

Fixing brackets (only inside assembling) for all tanks (excepting SE2029, SE2030)

12,61 EUR

Nr.: BS2001

Fixing brackets (only inside assembling) for SE2029, SE2030

20,17 EUR

Nr.: BS2002

***all Prices in Euro, ex works HeiPro Karweese, Germany**

All fuel tanks are 0,3 bar (4,35 psi) pressure checked and CE-certified!

For your own protection, please check with the appropriate authorities in your country if there are specific provisions prohibiting the use of fuel tanks. This is also to be done for any changes on the vehicle.
